

Due to some confusion with the Revision and Effective Date of the BQF-1 form in the program manuals, the title of the BQF-1 form now has the following addition:

“Revision 4 Effective June 1, 2010”

Three BQF-1 Forms, one from each manual (Producer, Marketer, Laboratory) have been uploaded to the website. Please replace your current BQF-1 form with those placed on the website for your respective manual. The manuals on the website have been updated with the Revision and effective date incorporated at the top of the BQF-1 Form. No company will receive a non-conformance since the language and information obtained from the BQF-1 form is still the same.
